
Antivirus 2006
FOR LEGAL 2.X PORTABLE GAMING SYSTEM (PSP)
Release date: 4.1.2006
Created by: Dream soft
Website: www.dream-soft.us
Email: webmaster@dreamsoft.zzn.com

SOFTWARE DESCRIPTION:

Antivirus is compatible with any legal 2.x portable gaming system. It is safe HTML-based software that does not require any system modification or hack of any kind.

TO INSTALL THE SOFTWARE:

1. Connect the portable gaming system to the PC using the USB cable
2. Start the program " Setup.exe" that is bundled with the software
3. Follow the on-screen instructions.

Note 1: The Setup program is compatible with Windows XP. If you have an older operating system, you may need to install the VB6 runtimes, which you can download from the following URL:
<http://www.microsoft.com>

Note 2: Here is what the Setup program does: it automatically detects the portable gaming system, and then simply copy the software files to the memory card, and add an entry to the bookmarks so that you can play the software from the Internet Browser of the portable gaming system. No system modification is required.

TO LAUNCH THE SOFTWARE:

1. Launch the Internet Browser on the portable gaming system
2. Go to the bookmarks, open "My Bookmarks"
3. Open the bookmark named "PSP Antivirus".

CONTROLS:

- Move the cursor with the analog stick
- Use the X button to click.

FOR THE BEST EXPERIENCE:

- The "Text Size" and the "Display Mode" (from the "View" menu of the Internet Browser) must be both set to "Normal".
 - All the options under the "View Settings" (from the "Tools" menu) must be enabled (images, animations, and JavaScript)
 - Do not use the L and R transparent buttons located at the top of the portable gaming system.
-

TO UNINSTALL THE SOFTWARE:

Simply remove the folder named "PSP Antivirus" that is located inside the "INSTALLED_SOFTWARE" folder of the memory card, and remove the entry that was added to the bookmarks.

WARRANTY DISCLAIMER:

THIS PROGRAM IS PROVIDED "AS-IS" AND WITHOUT WARRANTY OF ANY KIND.
